

About Orion Group

Orion Group was founded in 1985 by individuals with strong CPA and computer programming backgrounds. Our beginnings were centered around custom software development, and have expanded over the years to include:

- Hardware and Networking Sales and service; HP Gold Level Partner, Microsoft Business Partner
- Full Service Internet Development and Hosting
- Sales and Service of Quality Accounting, Distribution and Manufacturing Packaged Solutions; SYS-PRO Enterprise Resource Planning (ERP) Partner
- General Consulting for all Areas of IT
- And our latest venture, enSircle Managed IT Services

This base of knowledge and expertise was built by practicing our company philosophy and sticking to our simple mission: *"Orion Group strives to achieve the highest levels of integrity in providing products and services in a manner guaranteeing 100% of our customers will recommend us."*

You won't have to wade through layers of salespeople or call centers when you phone Orion Group. From the first call to Orion Group, you are connected with a technical resource that can begin to assist in determining the best options for you and your company - not give you a sales pitch.

With the number of service areas Orion Group offers, we pride ourselves on being a "turnkey solution" for many of our customers complete IT needs.

Let Our Team Go To Work for You!

Surrounding Your Business Environment

MANAGED PROACTIVE RESPONSIVE SUPPLEMENTAL

Your time is precious. You have more important issues to deal with than your computer network.

It is however, a critical enabler to your business and in

need of attention to ensure it's running predictably, optimally and securely. Our

fully managed IT services program is the ideal solution for an organization like yours; an organization that demands the utmost in network reliability and productivity.

Total IT support and management for one fixed monthly price - it's that simple. We provide the benefits of an internal MIS department for a fraction of the price to staff one yourself. We reduce the business impact of IT failures by minimizing their occurrence, frequency and resolution time. Any unforeseen issues are dealt with as a top priority resulting in a network that is secure, stable, contained (cost-wise), trusted to perform.

When you trust the management of your important IT resources to us, we view it as a partnership

and our comprehensive and professional approach signifies our belief in becoming your IT department. By optimizing your network's performance, it will work at the peak efficiency and reliability levels that your business demands, allowing you to focus on running your business, not your net-

Orion Group Engineers have over 70 years experience operating in virtually every network environment

work. Security, networking, data protection and user support - we handle it all for a single and predictable price. For years IT Service organizations have oper-

"The Break/Fix network support model benefits no one. Neither the client nor the provider"

ated on the premise that waiting for their clients network to crash was the best solution.

These fire drills serve to only cause confusion and in many cases panic or fear for all interested parties. The reality is the Break/Fix business model is antiquated and in this day and age of technology makes no sense.

Our enSircle Managed Services Model, creates

a true win, win environment between client and provider. enSircle will eliminate the peaks and valleys from your network productivity and replace them with the constant and continuous peak efficiency you've always expected from your IT infrastructure.
